ALSTOM TLD Registration Policies

The .ALSTOM TLD is a brand-TLD, as contemplated by Specification 13 of the Registry Agreement entered into by and between the Registry and ICANN.

The Registry currently intends for the .ALSTOM gTLD to be used exclusively by ALSTOM, its Affiliates and its Trademark Licensees.

The Registry hereby acknowledges that the .ALSTOM will be for the exclusive use of ALSTOM products, services and purposes.

The Registry aims at providing selected stakeholders in ALSTOM brands with the opportunity to create a secure and safe Internet environment that is mainly or even fully under control of the Applicant and/or such stakeholders.

The Registry does not intent at this stage to open the registration to any third parties other than ALSTOM itself, its Affiliates and its Trademark Licensees as defined in the Registry Agreement.

The aforementioned eligibility restrictions will also apply to any transfer or suspension of a Domain Name following a decision taken under the UDRP, the URS or any other dispute resolution procedure; in other words, the complainant under such procedures cannot or will not be entitled to request the transfer of a Domain Name in the .ALSTOM TLD insofar and to the extent he or she does not meet these eligibility requirements.
