Sunrise Dispute Resolution Policy

This Sunrise Dispute Resolution Policy (the “SDRP”) is incorporated by reference into the Registration Agreement.
An SDRP Complaint may be filed against a domain name registered during the .alsace TLD (the “TLD”) sunrise period (the “Sunrise Period”).
Domain names in the TLD can be registered by third parties or reserved by the Registry.
This SDRP shall become effective as of January 19, 2015.

1. Purpose of this document

This SDRP describes the process and standards that will be applied to resolve challenges alleging that a domain name has been registered, or has been declined to be registered in the .alsace TLD, in violation of the Registry’s Sunrise Eligibility Requirements set forth in the TLD Launch Policy.
This SDRP will not be applied to Registry-reserved names in the TLD or to domain names registered following any Limited Registration Period or Landrush which is part of the .alsace Launch Program.

2. Applicable Disputes

A .alsace domain name allocated or denied in the Sunrise Period will be subject to this SDRP upon submission of a complaint alleging that the allocation or denial was improper under one or more of the following criteria:

2.1. Improper Sunrise Allocation

A complaint under this section shall be required to show by reasonable evidence that a registered domain name in the .alsace TLD does not comply with the provisions of the Registry’s Sunrise Eligibility Requirements. The complaint must prove one or more of the following elements:

a. At the time the challenged domain name was registered, the registrant did not hold a trademark registration with national effect (or regional effect) or the trademark had not been courtvalidated or protected by a statute or treaty; or
b. The Domain Name is not identical to the mark on which the Registrant based its Sunrise registration; or

The trademark registration on which the registrant based its Sunrise application is not
of national effect (or regional effect) or the trademark had not been court-validated or protected by statute or treaty.

2.2. Improper denial of Sunrise Allocation

a. A complaint under this section shall be required to show that the Registry failed to allocate a .alsace domain name that was applied for in compliance with the Allocation Criteria required for the Registry’s Sunrise phase.

b. In addition, to pursue the remedies set forth in Section 5.2 improper denial of sunrise allocation (a) and (b) below, the complainant MUST notify the Registry Operator within the ten (10) calendar days following the Registry Operator’s decision to deny allocation of the domain name of its intention to submit a complaint under this SDRP. Such notice must be in writing.

3. SDRP Effective dates

Any SDRP claim brought under this Policy for domain names registered in the .alsace TLD shall be brought before forty-five (45) calendar days following the close of the Registry’s Sunrise phase.

4. Defenses

A Respondent may produce evidence to show that, although the Sunrise allocation was granted based on submission of the wrong documents, or documents containing an error, the true and correct evidence existed at the time the Sunrise allocation was applied for and, thus, the allocation would have been granted.

5. Remedies

The remedies available to a complainant for a complaint brought under this SDRP shall be limited to:

5.1. Improper Sunrise Registration

If the complaint is filed under Section 2.1 of this SDRP, any ongoing contention resolution process will be suspended until the dispute is resolved. If the Registry Operator finds that the domain name was improperly allocated during the Sunrise Period, the following remedies will apply:

a. If the complainant submitted a Sunrise-eligible application for the disputed domain name, the disputed domain name will be registered in favor of the complainant, provided that the complainant has the only existing Sunrise eligible application. If there is more than one eligible Sunrise application for that domain name, the auction process will continue for the remaining Sunrise eligible applications, including that of the complainant;

b. If the complainant applied for the disputed domain name based on a lower priority right (e.g., during the non-TMCH trademarks Limited Registration Period) and the complainant’s application was rejected for being of lower priority in the hierarchy than that improperly allocated, the disputed domain name will be allocated following the hierarchy criteria of the .alsace Launch program;

c. If no other eligible applications have been submitted for the disputed domain name during Sunrise or other lower-priority periods of the .alsace Launch Phase, the disputed allocation will be cancelled and it will be returned to the pool of names available for General Registration in the .bzh TLD.
5.2. Improper Denial of Sunrise Registration
If the complaint is filed under Section 2.2 of this SDRP, any ongoing auction process will be suspended until the dispute is resolved.
If the Registry find that the application was improperly denied during the Sunrise Period, the following remedies will apply:

a. If the disputed domain name has not yet been allocated:
   (i) it will be registered in favor of the complainant, provided that the complainant is the only existing Sunrise eligible application; or
   (ii) if there is more than one Sunrise eligible application for that domain name, the contention resolution process will begin or continue for the remaining Sunrise eligible applications, including that of the complainant.

b. If the disputed domain name has already been allocated in favor of a third party that fulfilled the Sunrise Eligibility Requirements, the domain name will go to contention, provided that the complainant notified the Registry Operator in due time of its intention to submit a complaint pursuant to Section 2.2 (b) of this SDRP.
