.健康 (xn--nyqy26a) Sunrise Dispute Resolution Policy

Title: Sunrise Dispute Resolution Policy
VersionControl: 1.0
Date of Implementation: March 01, 2015

This Sunrise Dispute Resolution Policy (the “SDRP”) is incorporated by reference into the Registration Policy. An SDRP Complaint may be filed against a domain name registered during the Sunrise period, until 30 days after the conclusion of the Sunrise period.

1. Purpose

This SDRP describes the process and standards that will be applied to resolve challenges alleging that a domain name has been registered in violation of the Registry Operator’s Sunrise Policy.

2. Applicable Disputes

A domain name registered in the TLD during the Sunrise Period will be subject to this SDRP upon submission, within 30 days from the end of the Sunrise Period, of a complaint alleging that such registration was improper under one or more of the following criteria.

a. Improper Sunrise Registration-Trademarks

A complaint under this section shall be required to show by reasonable evidence that a registered domain name in the TLD does not comply with the provisions of the Registry’s Sunrise Eligibility Requirements. Specifically, the complaint must prove one or more of the following elements:

i. at time the challenged domain name was registered, the registrant did not hold a trademark registration of national effect (or regional effect) or the trademark had not been court-validated or protected by statute or treaty;
ii. the challenged domain name is not identical to the mark on which the registrant based its Sunrise registration;
iii. the trademark registration on which the registrant based its Sunrise registration is not of national effect (or regional effect) or the trademark had not been court-validated or protected by statute or treaty; or
iv. the trademark registration on which the domain name registrant based its Sunrise registration application did not issue on or before the date specified by the Registry in its Sunrise Eligibility , if one was specified.

1 For the purposes of analysis of this element, neither the gTLD itself, nor the “dot,” shall be considered.
b. SDRP Effective Dates.

Any claim brought under this SDRP in connection with a domain name shall be brought no later than thirty (30) calendar days after end of the applicable Sunrise Period.

3. Evidence and Defenses

a. Evidence

Panelists will review the Registry’s Sunrise Policy in making its decision.

b. Defenses

Harmless error. A Respondent may produce evidence to show that, although the Sunrise registration was granted based on submission of the wrong documents, or documents containing an error, the true and correct evidence existed at the time the Sunrise registration was applied for and, thus, the registration was properly granted.

4. Remedy

The sole remedy available to a complainant for a proceeding under this SDRP shall be limited to cancelation of the subject registration.

5. Procedure

a. Dispute Resolution Provider / Selection of Procedure

Any Complaint under this SDRP shall be submitted to a designated Administrative Dispute Provider (Provider) chosen by Registry Operator, by submitting the complaint directly to the Provider. The Provider will administer the proceeding and select a qualified and eligible Panelist (“Panelist”). The Provider may establish a fee schedule and other technical and process requirements for handling a dispute under this SDRP. The proceedings under this SDRP will be conducted according to this SDRP, the Sunrise Policy, and the applicable Rules of the Provider.

b. Registry’s or Registrar’s Involvement

Neither the Registry nor registrar will participate in the administration or conduct of any proceeding before a Panelist. Neither the Registry nor the registrar is or will be liable as a result of any decisions rendered by the Panelist. Any sunrise-registered domain names in the TLD involved in a SDRP proceeding will be locked against transfer to another domain name holder or another registrar during the course of a proceeding. During such time, the contact details of the holder of a registered domain name in the TLD, against which a complaint has been filed, will be as shown in the registrar’s publicly available Whois database record for the relevant registrant.
**c. Parties**

The applicant or registrant of a registered domain name in the TLD shall be promptly notified by the Provider of the commencement of a dispute under this SDRP, and may contest the allegations of the complaint or show other cause why the remedy requested in the complaint should not be granted in accordance with this SDRP. In all cases, the burden of proof shall be on the complainant, and default or other failure of the holder of the registered domain name shall not constitute an admission to any allegation of the complaint. The Provider shall promptly notify all named parties in the dispute, as well as the registrar and the Registry of any decision made by a Panelist.

**d. Decisions**

(i) The Panelist may state the basis on which the decision is issued in summary format and may include such commentary or guidance as the Panelist deems appropriate;

(ii) the decision shall state whether a registered domain name in the TLD is to be cancelled or the status quo maintained; and

(iii) decisions made under this SDRP maybe publicly published by the Provider on its website.

**e. Implementation of a Lock and the Decision**

If a Panelist’s decision requires a change to the status of a registered domain name, the Registry Operator will wait ten (10) business days after communication of the decision before implementing that decision, unless the registrant submits to the Registry (with a copy to the Provider) during that ten (10) day period official documentation (such as a copy of a complaint, file-stamped by the clerk of the court) that the registrant has commenced a lawsuit to preserve its claimed rights in a court of competent jurisdiction over the parties and the registered domain name. If such documentation is received then no further action shall be taken until the Registry receives (i) evidence satisfactory to the Registry of an agreed resolution between the parties; (ii) evidence satisfactory to Registry that registrant’s lawsuit has been dismissed or withdrawn; or (iii) a copy of an order from such court dismissing such lawsuit or otherwise directing disposition of the registered domain name.

**f. Representations and Warranties**

Parties to a dispute under this SDRP shall warrant that all factual allegations made in the course thereof are true and correct to the best of their knowledge, shall remain subject to all representations and warranties made in the course of registration of a disputed domain name.

**6. Maintaining the Status Quo**

During a proceeding under the SDRP, the registered domain name shall be locked against transfers between registrants and/or registrars and against deletion by registrants.
7. Indemnification / Hold Harmless

The parties shall hold the registrar, the Registry Operator, the Provider, and the Panelist harmless from any claim arising from operation of the SDRP. Neither party may name the registrar, the Registry, the Provider, or the Panelist as a party or otherwise include the registrar, the Registry, the Provider, or the Panelist in any judicial proceeding relating to the dispute or the administration of the SDRP policy. The parties shall indemnify, defend and hold harmless the registrar, the Registry, the Provider, the Panelist and their respective employees, contractors, agents and service providers from any claim arising from the conduct or result of a proceeding under this SDRP. Neither the registrar, the Registry, Provider, the Panelist or their respective employees, contractors, agents and service providers shall be liable to a party for any act or omission in connection with any administrative proceeding under this SDRP or the corresponding Rules. The complainant shall be directly and solely liable to the registrant in the event the complaint is granted in circumstances where the registrant is lawfully entitled to registration and use of the registered domain name(s) in the TLD.

8. Relation To Other Dispute Resolution Policies

This SDRP is in addition to and complementary with the Uniform Domain Name Dispute Resolution Policy (“UDRP”), the Uniform Rapid Suspension System (“URS”) and any charter, nexus, or eligibility dispute policies adopted by ICANN or the Registry Operator.

9. Effect of Other Proceedings

The administrative proceeding under the SDRP shall not prevent either party from submitting a dispute concerning the registered domain name in the TLD to concurrent administrative proceedings or to a court of competent jurisdiction for independent resolution during a pending SDRP administrative proceeding or after such proceeding is concluded. Upon notice of such other proceeding, the SDRP proceeding may be terminated (in the sole discretion of the Panelist) in deference to the outcome of such other proceeding.

10. SDRP Modifications

The Registry Operator and/or Provider reserves the right to modify this SDRP at any time. Such revised SDRP shall be posted on the Registry Operator Website. If this SDRP has already been invoked by the submission of a complaint, then the version of the SDRP in effect at the time it was invoked will apply until the dispute is concluded. In the event that registrant objects to a change in this SDRP, the sole remedy is to cancel the registration, provided that registrant will not be entitled to a refund of any fees paid in connection with such registration.
