QUALIFIED LAUNCH PROGRAM

.CORSICA

Collectivité Territoriale de Corse (CTC) ("Registry Operator"), in connection with the execution of the Registry Agreement for the .CORSICA TLD (the "Registry Agreement"), intends to conduct the below described launch program pursuant to Section 4.5.1 of the Trademark Clearinghouse Rights Protection Mechanism Requirements (the "TMCH Requirements") in accordance with the provisions set forth in the Qualified Launch Program Addendum published by ICANN on April 10th, 2014.

The Pioneer Program intends to offer potential .CORSICA domain name holders the possibility to register and start using .CORSICA domain names prior to the General Registration period. Such early registered domain names are called “Pioneer Names”. The active and positive use of .CORSICA Pioneer Names will drive public interest and will increase awareness of the .CORSICA TLD.

Among all the applications received that meet the eligibility criteria set forth below, the Registry Operator will select and allow registration of a maximum of ninety (90) .CORSICA Pioneer Names, based on a criteria of visibility, notoriety, commitment to the promotion of the .CORSICA TLD, and contribution to the purposes of the .CORSICA TLD.

To this effect, CTC will publish a Call for Proposals (attached). Applications will be received by CTC before October 6, 2015, the date established as deadline.

In that call for proposals CTC explicitly informs potential applicants that the Program is being conducted according to the provisions established by ICANN in the TMCH Requirements and QLP Addendum.

In view of the above, upon approval by ICANN of the StartUp Information hereby submitted, including this QLP, CTC will proceed to:

• Review and select the Projects from among those presented that meet the criteria established by CTC.
• Check the names proposed by the applicants against the TMCH’s Sunrise List;
• Check their full conformity with all the requirements set forth in the Addendum to the RPM Requirements;
• Proceed to allocate (or reject) the proposed names;
• Allow registration and activation of allocated names.

All this will be done between the date of approval of the StartUp Information by ICANN and October 6th (provisional date provided ICANN’s approval in due time)
