- a. Must be in an Arabic-based script (such as Arabic, Jawi, Kurdish, Pashto, Persian and Urdu) according to IDN Table published at http://www.iana.org/domains/idn-tables/tables/xn--mgbab2bd_arab_1.0.txt and must follow the [Domain Rules for DotBazaar](http://dotbazaar.net/domain-rules/) available at <http://dotbazaar.net/domain-rules/>, which are incorporated to this Policy by reference;

The بازار General Registration Policy will apply to all aspects of Your registration not specifically contemplated in this Launch Policy.

- 3.2 The Launch Phase for بازار will start on 26 August 2014 11:00 UTC and will end on 28 October 2014 11:00 UTC*. During this single 63 calendar day period, five categories of applications will be accepted: four categories for registrants with prior rights, and one additional category for applications without prior rights (*Landrush*). 4. Priority 1 Category: End-Date Sunrise

4.1 Sunrise Eligibility Requirements

Only registered owners, licensees or assignees of trademarks in Arabic-based scripts (such as Arabic, Jawi, Kurdish, Pashto, Persian and Urdu) verified by the Trademark Clearinghouse may participate in this top-priority category.

The Registry Operator will only register the domain name applied for insofar and to the extent that:

- a. The domain name meets the general eligibility criteria set out in the بازار General Registration Policy;
- b. The domain name corresponds exactly with a trademark validated, upon request of the applicant, by the Trademark Clearinghouse for Sunrise Services;
- c. a valid SMD file is submitted at the time of application;
- d. the application matches a label contained within the SMD file;
- e. and the domain name is available.

No other requirements (e.g. trademark jurisdiction, trademark class or local presence) will apply.

4.2 Allocation and Contention Resolution via Auction

After the close of the Sunrise period, the Registry Operator will validate all applications received. If an application is successfully validated and the Registry Operator has not received any other applications for the same domain name, such domain name will be automatically allocated to the applicant and the registration fee will be charged.

Should there be more than one eligible application for the same domain in this Sunrise Period category, the contention will be solved through an auction process. No other contention resolution criteria (like allocation based on a first-come first served basis, or taking into account the class of goods and services or jurisdiction of the Trademark Record) will apply.

4.3 Priority

Applications eligible under this category will be allocated with priority over eligible applications within the next three categories, which are lower in hierarchy.

4.4 Sunrise Dispute Resolution Procedures

The allocation and/or rejection of Sunrise applications may be challenged according to the Sunrise Dispute Resolution Policy available on the Registry Operator's website.

The Registry Operator will only register the domain name applied for insofar and to the extent that:

- a. The domain name meets the general eligibility criteria set out in the بازار General Registration Policy;
- b. A valid SMD file is submitted at the time of application;
- c. The selected name is an acceptable transliteration or transcription into an Arabic-based script (according to the Registry Operator's Guidelines, and subject to the Registry Operator's individual review and approval) of a label contained in the SMD. The proposed transliteration/transcription will only be accepted insofar and to the extent that the Registry Operator can validate it;
- d. and the domain name is available.

No other requirements (e.g. trademark jurisdiction, trademark class or local presence) will apply.

You acknowledge and agree that the Registry Operator's acceptance of a transliteration/transcription does not constitute a legal right to the domain and the Registry Operator will not be held liable in the event of a successful claim against the registration by a legitimate third party.
