- i) The specific eligibility requirements set forth in this Launch Policy for each launch category, as well as with;
- ii) The general eligibility requirements and terms of use set forth in the .barcelona Registration Policy, hereby incorporated by reference. Specifically, to register and renew a .barcelona domain name the Registration Policies require that You must be an individual or legal entity with with a nexus to the .barcelona community at the time of registration and thereafter. This nexus means that you must be linked to the community at the time of registration and thereafter on a linguistic, cultural, tourism, commercial basis, or any other activity conducive to the welfare of the .barcelona community.
- iii) Subject to the further requirement that the registrant’s actions in the .barcelona community, as well as the registrant’s use of the registered domain name, must be:
 - i) generally accepted as legitimate; and
 - ii) beneficial to the cause and the values of the .barcelona community; and
 - iii) commensurate with the role and importance of the registered domain name; and

iv) in good faith at the time of registration and thereafter.

Registrants are required to state their intended use of the registered domain name. A false statement of intended use is an indication of bad faith and can be the basis for the suspension of the domain name.

Community nexus is subject to post-validation by way of an extensive compliance program based on the same criteria that form the basis of the TLD.
