Domain Name Pricing Policy for the TLD .koeln

I. Purpose of this document

The purpose of this document is to describe our policy on domain name pricing, including:

- Domain name creation and renewal;
- Application fee for domain names; and
- Landrush fees

II. General information regarding this policy

The availability of domain names is at all times subject to NetCologne's policy for the TLD .koeln. The policy documents can be found at the domains website at the following link www.dotkoeln.de

All domain names must be purchased and managed using an ICANN accredited registrar; as they are the retail channel for the TLD. NetCologne has an agreement with all of its registrars which amongst other things details the fees associated with domain name transactions. While we set the fees for domain name transactions to registrars, they are free to retail those domain names based on their service offering and delivery models.

It is our intention however that when an end user enters into an agreement with a registrar, they are made aware of the fees associated with the domain name including the fees for creation and renewal of the domain name.
