Internet Corporation for Assigned Names and Numbers

Trademark Clearinghouse TLD Startup Information Form

Instructions

1. Submit the completed TLD Startup Information Form and all applicable documents (not links) to ICANN's Customer Service Center (CSC) via email at newgtld@icann.org.

2. Please note that **if you opt to request specific dates versus "next available", the earliest Sunrise start date that will be accepted is "submission date plus five (5) business days"**. This is necessary to allow ICANN time to review the requested dates for compliance, schedule the Sunrise and Claims periods, notify our TMCH and TMDB vendor partners and publish your TLD's startup information and dates.

    In addition, you may opt to provide specific dates AND "next available". This means if none of the specific dates requested are available, the next available date will be given/used. If ONLY specific dates are given and none of them are available, ICANN will contact the Registry Operator to request additional desired dates.

Required Information	Registry Operator Response
Submission Date:
