

# Domain Name Registration Rules for .NOWRUZ

## Accepted characters and combinations

- Classic (Non IDN) domain names consist of:
  - Characters a to z
  - Digits 0 through 9
  - Hyphen (-)
  - Cannot start nor end with a hyphen (-)
  - Cannot have a hyphen in third and fourth position, unless the first two characters are 'xn' and the domain name can be converted to a valid IDN.
- IDNs consist of:
  - Digits 0 through 9
  - Hyphen (-)
  - Unicode characters from the Perso-Arabic Alphabet
  - Cannot start nor end with a hyphen (-).
  - Cannot have a hyphen in third and fourth position.

## Domain Name length and IDNs

Domain names must be at least three (3) characters long. Domain name can not be longer than 63 characters. Domain name length does not include length of .NOWRUZ extension. IDN domain names should be converted to ACE string before registration. Domain name length restrictions will apply after ACE string conversion.

## Common Rules for Registration

These Rules apply to the registration, renewal, transfer, modification, suspension and deletion of Domain Names and to other transactions with respect to Domain Name Registrations.

Registration requests will be processed on a first come first served basis

Registration requests must be in EPP format specified by Asia Green IT Systems or registrations should be completed from registry backend panel by registrar company.

The Registrar must have sufficient deposit or credit in their registry account to cover any fees charged by AGIT.

## Expiry Date of Domain Names and Renewal Policies

Domain names can be registered between one year to ten years. Domains expiry date can not be newer than ten years. For example, if a domain name has two years remaining to expiry, than it will not be allowed to renew more than eight years.

## Blocked Names

Certain .NOWRUZ domain names have been blocked by Asia Green IT Systems Ltd. Şti. This means that they may not be registered.

Two-letter domain names have been blocked as well due to ICANN restrictions. Two-letter domain names except two-letter country codes may be released upon ICANN's permission.

## Reserved Names

The registry have been reserved some domain names for its own use for the registry operation.
